

Y9 PHOTOGRAPHY TRIP

Earlier this week a group of year 9 students visited Northumbria University to undertake some photography workshops as part of their ongoing arts project. Students were lucky enough to tour the photography and media facilities, with the opportunity to explore their creativity taking their own photos around Campus and learning how to edit these for their chosen theme.

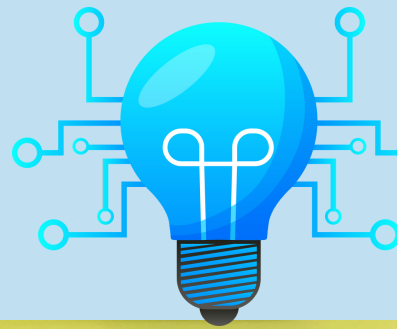

HEALTHY LIVING WEEK

Students using pedal power to create their own smoothies courtesy of Chartwells.

INNOVATION CHALLENGE

Yesterday a group of year 7 & 8 students who are currently undertaking an 'Innovation Challenge' received a visit from a STEM Ambassador who works for the Centre For Process of Innovation. With Eleanor's knowledge and expertise students pursued a number of enterprise activities, helping them to problem solve, generate ideas, evaluate these ideas and negotiate on one idea to pursue for the project. Students were also guided in project management and how to create their own Gantt chart as a planning tool. Understanding employability skills was key, with students completing their own personality quiz in order to assign appropriate team roles.

GOODBYE YEAR 11 & YEAR 13

We would like to say a massive well done to Year 11 & 13 for their hard work and conduct during the GCSE and A Level exams. You have all been outstanding and we know you will reap the rewards on results day. Next week we will have a little celebration of your time with us, as we say goodbye, in Leaver's Assembly.

Y10 Mock Exams
